

Extending Critical Health  
Care to Vulnerable & less  
privileged local  
communities in Uganda.

Dr Brian Rushaju's early years of work were defined by *numerous dental outreaches in northern Uganda* during the Joseph Konny insurgence.

While at the internally displaced people's camps (IDPs), Brian discovered great oral health needs marking the founding of RUN Dental (Reaching the Unreached Dental Needs)

We work with Churches, Schools and organizations to provide an evangelistic outreach, Preaching the Good News and Healing communities

# The need to relieve communities from oral pain.

# The need to relieve communities from oral pain.

**Giving children in Uganda a reason to smile**

Outreach Dental Screening

→ **Training teachers**

**Oral Health Education**

Oral Health Education

Since 2004, RUN Dental has provided **voluntary and supported outreach clinics to rural communities reaching out to populations.** In 2023, RUN Dental Changed its name to **RUN Foundation** in order to provide a holistic and more sustainable approach in relieving communities from oral pain and other associated complications such as eye problems.

**MOVING  
FORWARD**

# THE CHILDREN'S COMMUNITY CLINIC

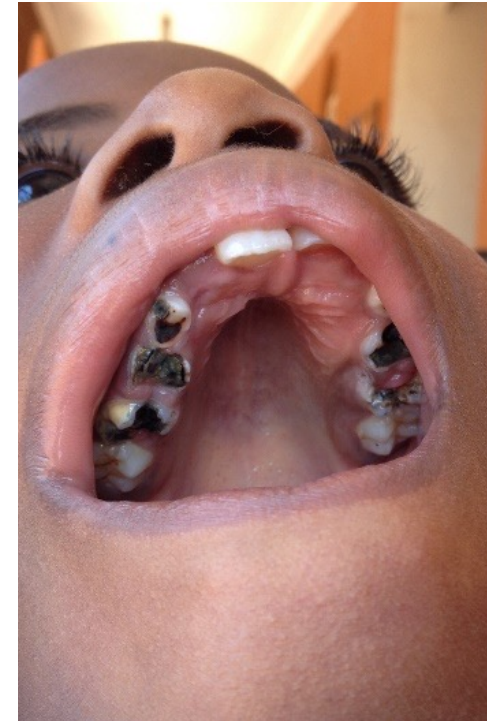

This hosts Dr RYAN Roberts's children's project is an interventional oral health project for children in Naganbo, Kasaganti, Wakiso district, that offers many oral health opportunities and dental service for children in Uganda. It is also a host for Short term mission trips by Students doing their electives and health practitioners.

**COMPLETED FACILITY**

**The clinic has been designed to be a referral Centre from community outreach clinics in Uganda with capacity to handle 100 Children per day**

## The Clinic has the Capacity to;

- Manage referrals of severe cases from community Dental Outreaches.
- Management of oral manifestations of HIV/AIDS
- Management of anxious patients with inhalation sedation
- Oral health promotional activities like “free cavities club”
- Training dental students and dentists in pediatric dental care through electives for dental students, Internship rotations, CME activities for Dentists
- Apprenticeship program with Volunteer Dentists from the International community for young dentists in Uganda

# THE SCHOOL (GALILEE INSTITUTE OF HEALTH)

## **The School is a sustainability strategy;**

- It is going to equip and train students from local communities who go back to continue serving their people.
- Interest groups will include, rural communities and church refugee communities
- This will increase the accessibility and affordability of oral healthcare in the local communities

# EVANGELISTIC COMMUNITY OUTREACHES

## **The Evangelistic Outreaches help us to;**

- Extent treatment to vulnerable communities that do not easily access oral health care.
- Incubation ground for students doing their electives and internship placements
- Partnering with local community churches during their evangelistic activities to bring about holistic care while preaching, healing and transforming lives

# INTERNATIONAL STUDENT ELECTIVES & SHORT TERM MISSIONS

# INTERNATIONAL STUDENT ELECTIVES & SHORT TERM MISSIONS

- RUN Foundation offers International Dental Students elective placements where they can explore their skills by carrying out oral health education, dental screening and dental treatment to children and adults.
- This promotes exchange of knowledge and skills

# HOW TO PARTICIPATE

## GALILEE HEALTH INSTITUTE

Bamba, Nagambo, Kasagati,  
Wakiso District | P.O BOX: 37189, Kampala

- **Train and Equip students from local churches who go back to their rural communities to serve.**

# SPONSOR THE BUILDING OF A CLASSROOM

We need to construct 3 classrooms and a library block

- There is need to establish classrooms for theoretical lessons
- In this initial phase of construction, we aim to build three classrooms and a library – the heart of this inspiring institute.
- To make this vision a reality, we need to raise \$37,000.

# SPONSOR THE BUILDING OF A CLASSROOM

- **Donate a Classroom:** Your generous contribution of **\$8,000** will fund an entire classroom, providing a nurturing space for students to learn and grow.
- **Individual Donations:** Every contribution counts! Join a group of 10 individuals, each donating **\$800** towards one classroom.
